- Refined petroleum oils—The annual valuation of Refined petroleum oils exported from France in 2025–4.21 billion US dollars
- Petroleum gases- The annual valuation of Petroleum gases exported from France in 2025–3.98 billion US dollars
- Anthracite coal—The annual valuation of Anthracite coal exported from France in 2025–2.65 billion US dollars
- Coal- The annual valuation of Coal exported from France in 2025–2.21 billion US dollars
- Coke- The annual valuation of Coke exported from France in 2025–1.87 billion US dollars
- Petroleum coke- The annual valuation of Petroleum coke exported from France in 2025–1.65 billion US dollars
- Bitumen- The annual valuation of Bitumen exported from France in 2025–1.21 billion US dollars
- Mineral tar- The annual valuation of Mineral tar exported from France in 2025–954 million US dollars
- Paraffin wax- The annual valuation of Paraffin wax exported from France in 2025–609 million US dollars
- Bituminous mixtures- The annual valuation of Bituminous mixtures exported from France in 2025–500 million US dollars

TOP TRADE PARTNERS OF FRANCE IN 2025

The investment incentives for innovation and export activities have led to better foreign trade attraction. As per the France customs data, the topmost trade partners benefiting the export economy of the nation regarding its mineral fuels trade in 2025 are,

- Germany—The annual valuation of mineral fuels exported from France to Germany in 2025–5.09 billion US dollars

Top 5 variants of mineral fuels exported

- Distillate fuel oil
- Grey diesel
- Clear diesel
- Bunker fuel
- High-sulphur fuel oil
- Spain—The annual valuation of mineral fuels exported from France to Spain in 2025–3.92 billion US dollars

Top 5 variants of mineral fuels exported

- Gas oil blendstocks
- Fuel oil blendstocks
- Sulphur-free kerosene

- Hydrocracked diesel
- Biofuel blends (mineral fuel mix)
- Italy—The annual valuation of mineral fuels exported from France to Italy in 2025–3.65 billion US dollars

Top 5 variants of mineral fuels exported

- Pentane
- Hexane
- Petroleum gas liquids
- Asphalt roof coatings
- Bitumen roofing felt
- Belgium—The annual valuation of mineral fuels exported from France to Belgium in 2025–2.91 billion US dollars

Top 5 variants of mineral fuels exported

- Low-sulphur fuel oil
- Bitumen emulsions
- Bitumen fluxed
- Distillate aromatic extracts
- Raffinate
- Netherlands—The annual valuation of mineral fuels exported from France to the Netherlands in 2025–2.08 billion US dollars

Top 5 variants of mineral fuels exported

- Heating oil
- Sulphurized fuel
- Distillate fuel oil
- Grey diesel
- Clear diesel
- United States—The annual valuation of mineral fuels exported from France to the United States in 2025–1.65 billion US dollars

Top 5 variants of mineral fuels exported

- Petroleum ether
- White spirit
- Aviation turbine fuel
- Marine fuel oil
- Furnace oil
- United Kingdom—The annual valuation of mineral fuels exported from France to the United Kingdom in 2025–1.42 billion US dollars

Top 5 variants of mineral fuels exported

- Hydrotreated diesel
- Hydrocracked base oils
- Polymer gasoline
- Alkylate gasoline
- Solvent naphtha
- Switzerland—The annual valuation of mineral fuels exported from France to Switzerland in 2025–1 billion US dollars

Top 5 variants of mineral fuels exported

- Petroleum jelly
- Mineral jelly
- Gas oils
- Light cycle oil
- Heavy cycle oil
- Poland—The annual valuation of mineral fuels exported from France to Poland in 2025–952 million US dollars

Top 5 variants of mineral fuels exported

- Olefinic oils
- Petroleum coke
- Petroleum waxes
- Asphalt
- Pitch
- Morocco—The annual valuation of mineral fuels exported from France to Morocco in 2025–701 million US dollars

Top 5 variants of mineral fuels exported

- Motor spirit
- Aviation gasoline
- Residual fuel oil
- Lubricating oils
- Base oils

FUTURE TRADE OUTLOOK OF THE EXPORT MARKET OF FRANCE IN 2025

The export market of France will have a resilient but moderately paced mineral fuels export growth rate. The mineral fuel trade of the country will have a strong trade momentum, fostered mainly by the evolution of the country's natural reserves. The nation will continue to evolve its trade attraction strategies to accelerate the global expansion of services.

The skilled refinery workforce and the strong petroleum storage facilities of the nation will be terminal for the radiant growth rate, the strong cross-border transport connectivity, and the financial backing from trade policy like BPI France will continue to drive the overall success.
