

# Russia's Fertilizer Export Trade: Trends and Updates of 2025

Russia, based in Eastern Europe and Northern Asia, bordered by Norway, Finland, and Latvia, like countries, is a representative exporter of fertilizers in the worldwide marketplace. [Russia Import Data](#) has listed that the large domestic market of the country and the fertilizer producers like PhosAgro and EuroChem are behind the static growth rate of the fertilizer trade.

RUSSIA'S FERTILIZER EXPORT TRADE: TRENDS AND UPDATES OF 2025

The consistent year-on-year export growth and the large export base providing market diversification have resulted in a total valuation of fertilizers export from the country worth 25 billion US dollars in 2025. The growing African demand and agricultural expansion in developing nations have been promoting the overall trade revenue. Subscribe to Import Globals, the leading Russia Import Export Trade Provider, to stay updated with the latest information regarding the fertilizers export of the nation by the Russia Trade Data.

## GOVERNMENT INITIATIVES SUPPORTING THE FERTILIZER EXPORT OF RUSSIA IN 2025

The fertilizer export duties started in 2025 have lowered the prices on exported fertilizers, which has encouraged the producers to export more without domestic taxation. The extension and increasing export quotas for mineral fertilizers have helped the small and medium enterprises balance the domestic supply. The setting of export quota targets for late 2025 has supported smoother and sustained export activity during seasonal fluctuations.

The government-led trade diplomacy and market diversification have facilitated the export contracts while enhancing market access and trust. It has even diversified the buyers and reduced geopolitical risk. The coordination of export logistics and shipping infrastructure has reduced export cost and risk while making the Russian fertilizers more competitive internationally.

## TOP VARIANTS OF FERTILIZERS EXPORTED FROM RUSSIA IN 2025

The competitive pricing ranges and the high global fertilizer pricing strategies set up by the government authorities have led to a plethora of fertilizer trade in the global marketplace. According to the [Russia Export Data](#), the topmost variants of fertilizers exported from the nation in 2025 are,

- Urea—The annual valuation of Urea exported from Russia in 2025–7.92 billion US dollars
- Muriate of Potash (MOP)- The annual valuation of Muriate of Potash (MOP) exported from Russia in 2025–5.18 billion US dollars
- NPK Complex Fertilizers—The annual valuation of NPK Complex Fertilizers exported from Russia in 2025–4.39 billion US dollars
- Monoammonium Phosphate (MAP)—The annual valuation of Monoammonium Phosphate (MAP) exported from Russia in 2025–3.92 billion US dollars
- Diammonium Phosphate (DAP)—The annual valuation of Diammonium Phosphate (DAP) exported from Russia in 2025–3.08 billion US dollars
- Ammonium Nitrate—The annual valuation of Ammonium Nitrate exported from Russia in 2025–2.65 billion US dollars
- Ammonia-Based Fertilizers—The annual valuation of Ammonia-Based Fertilizers exported from Russia in 2025–2.21 billion US dollars
- Phosphate Rock—The annual valuation of Phosphate Rock exported from Russia in 2025–1.87 billion US dollars
- Sulphate of Potash (SOP)—The annual valuation of Sulphate of Potash (SOP) exported from Russia in 2025–1.65 billion US dollars
- Liquid Nitrogen Fertilizers—The annual valuation of Liquid Nitrogen Fertilizers exported from Russia in 2025–1.21 billion US dollars

## TOP TRADE PARTNERS OF RUSSIA IN 2025

The strategic bilateral deals enhancing the export routes and the stable supply have led to foreign trade attraction. According to the Russia customs data, the topmost trade partners benefiting the fertilizers export economy of the nation in 2025 are,

- Germany—The total valuation of fertilizers exported from Russia to Germany in 2025–8.65 billion US dollars

### Top 5 variants of fertilizers exported

- Foliar Fertilizer
- Micronutrient Foliar Spray
- Silicon Fertilizer
- Calcium Sulphate
- Ammonium Thiosulphate
- United States—The total valuation of fertilizers exported from Russia to the United States in 2025–7.21 billion US dollars

### Top 5 variants of fertilizers exported

- Bone Meal Fertilizer
- Blood Meal Fertilizer
- Fish Meal Fertilizer
- Seaweed Extract Fertilizer

- Humic Acid Fertilizer
- United Kingdom—The total valuation of fertilizers exported from Russia to United Kingdom in 2025–6.08 billion US dollars

#### Top 5 variants of fertilizers exported

- Biofertilizer (Rhizobium)
- Azotobacter Biofertilizer
- Azospirillum Biofertilizer
- Phosphate Solubilizing Bacteria (PSB)
- Mycorrhizal Biofertilizer
- Italy—The total valuation of fertilizers exported from Russia to Italy in 2025–3.54 billion US dollars

#### Top 5 variants of fertilizers exported

- Chelated Manganese
- Chelated Copper
- Chelated Micronutrient Mix
- Magnesium Sulphate
- Gypsum (Agricultural)
- Iraq—The total valuation of fertilizers exported from Russia to Iraq in 2025–2.81 billion US dollars

#### Top 5 variants of fertilizers exported

- Ferrous Sulphate Fertilizer
- Copper Sulphate Fertilizer
- Manganese Sulphate Fertilizer
- Borax Fertilizer
- Boric Acid Fertilizer
- France—The total valuation of fertilizers exported from Russia to France in 2025–2.05 billion US dollars

#### Top 5 variants of fertilizers exported

- Water-Soluble NPK
- Controlled-Release Urea
- Slow-Release Nitrogen Fertilizer
- Polymer-Coated Urea
- Sulphur-Coated Urea
- Spain—The total valuation of fertilizers exported from Russia to Spain in 2025–1.65 billion US dollars

#### Top 5 variants of fertilizers exported

- Ammonium Polyphosphate
- Nitrophosphate
- Urea Phosphate
- Potassium Phosphate
- Muriate of Potash (MOP)
- Canada—The total valuation of fertilizers exported from Russia to Canada in 2025–1.21 billion US dollars

### **Top 5 variants of fertilizers exported**

- **Monoammonium Phosphate (MAP)**
- **Diammonium Phosphate (DAP)**
- **Triple Superphosphate (TSP)**
- **Single Superphosphate (SSP)**
- **Rock Phosphate**
- **United Arab Emirates—The total valuation of fertilizers exported from Russia to the United Arab Emirates in 2025–1 billion US dollars**

### **Top 5 variants of fertilizers exported**

- **Aqua Ammonia**
- **Ammonium Bicarbonate**
- **Sodium Nitrate**
- **Calcium Nitrate**
- **Potassium Nitrate**
- **Netherlands—The total valuation of fertilizers exported from Russia to the Netherlands in 2025–900 million US dollars**

### **Top 5 variants of fertilizers exported**

- **Urea Ammonium Nitrate (UAN)**
- **Ammonium Nitrate**
- **Calcium Ammonium Nitrate (CAN)**
- **Ammonium Sulphate**
- **Ammonium Chloride**

## **FUTURE TRADE OUTLOOK OF THE FERTILIZER EXPORT OF RUSSIA IN 2025**

**The country's fertilizer export is expected to sustain its stronger growth, driven by the expanding production and rising global demand. The Fertilizer Producer Association forecast will have a year-on-year increase of about 5 to 7% in the near future.**

**The growth rate will have robust shipments to key markets like India, China, and Brazil. The share of the global fertilizers trade is significant, with 18 to 19% of mineral fertilizers produced in the country. The strong agricultural activity in emerging markets and the increased support of nitrogen, phosphate, and compound fertilizers are behind the continuity in the production rate.**
